

AGAPAY

A PROPOSAL FOR PARISH COUNCIL

ORTHODOX CHURCH MANAGEMENT SOFTWARE

One platform for all of Orthodox parish life.

AGAPAY unifies giving, stewardship, people, ministries, sacraments, events, commerce, communications, and accounting — built together, and aware of the liturgical calendar throughout.

"And above all these things put on agapē, which is the bond of perfectness."

COLOSSIANS 3:14

THE PLATFORM

Every part of parish life, now in one place.

Giving, service, and community can all share a home on AGAPAY — not six separate tools.

LIVE

Giving & Stewardship

Tithes, recurring gifts, candles, and campaigns, with donor history, annual pledge progress, and a clear Stewardship Health picture for parish leadership.

LIVE

Koinonia

A parish feed, ministry groups, signups, prayer requests, and a parish marketplace — the full picture is next.

LIVE

Directory & Households

A private, member-only directory organized by household — namedays, contact details, and ways to serve, kept current by the families who live it.

LIVE

Sacraments & Services

Self-service booking for open parish times, structured requests for baptisms and weddings needing pastoral review, and commemoration names sent to the altar.

LIVE

Bookstore & Church Commerce

Feast-day dinners, festival plates, and bookstore goods — with real checkout, per-item QR codes for guests without the app, and sales tax calculated correctly.

LIVE

Accounting

Fund accounting, journal entries, reconciliation, budgets, and year-end reporting that stay connected to the gifts, sales, and pledges that created them.

SECURITY

How AGAPAY protects your parish and your donors.

The same care that goes into every liturgical detail, built into every login.

No one can read your password

Not even AGAPAY staff. Passwords are scrambled beyond recovery the moment they're created, with rate-limited sign-in and email verification.

Your card number never touches AGAPAY

Card details go straight to Stripe, the same processor trusted by millions of businesses. Every gift deposits directly into the parish's own bank account.

Your parish's data is walled off

Your directory, donations, and finances stay separate from every other parish on AGAPAY — visible only to your own staff, only as their role allows.

Every important change leaves a record

Who was added, who edited what, who touched the books — automatically logged, and impossible to quietly alter or delete.

A second layer of protection at login

Required for admins, optional for donors — a password plus a fingerprint, Face ID, or a code from their phone. Ten backup codes mean no one's locked out.

Protected by Cloudflare

One of the internet's largest security infrastructure providers, used by roughly one in five websites worldwide, blocking large-scale attacks before they reach us.

No system connected to the internet can promise to be completely risk-free, and we won't pretend otherwise — the full technical details are at agapay.app/give#security.

WHY WE BUILT THIS

AGAPAY was not built by studying parish administration from the outside. It was built from inside the life it serves. Not software with faith bolted on — a platform for the whole reverent life of Orthodox Christians, and the parishes that carry them.

YOUR PARISH'S COMMUNITY HUB

Every feature, in one connected place.

Every Koinonia feature requires a verified household member of your own parish — not a public forum.

Parish feed
Announcements, milestones & Community Inbox notifications

Ministry groups
Own messaging & schedule per group

This Week in the Church
Liturgical calendar, feasts & fasting, synced from Google Calendar

Signups
Meal trains, cleaning, events & volunteer needs

Parish Exchange
A marketplace to offer or request items

Prayer requests
Parish-wide or clergy-only, with notifications

Listen
Parish teaching recordings & podcast subscriptions

Media
Parish videos & your connected YouTube channel

News
Curated Orthodox news alongside your parish's own blog

Parish Library
Staff-curated forms, pastoral letters & faith formation resources

Every part of AGAPAY already knows what day it is in the Church.

Fasting periods, feast days, and daily commemorations aren't a separate calendar bolted on the side. The same liturgical awareness shapes festal giving prompts, sacrament scheduling, and what a parish sees first when it opens Koinonia.

Julian & Revised Julian aware

Fasting rule, daily

Saints & commemorations

Feast-day giving prompts

Canonically minded
Communities are reviewed before activation, so donors know where their gifts are going.

Human support
Real people for onboarding, parish workflows, and the practical details of launch.

Built by Orthodox Christians
For Orthodox parishes, monasteries, and the households that sustain them.

Giving Intelligence & Automated Reporting

Data and reports no spreadsheet or generic giving platform gives a parish.

GIVING INTELLIGENCE

The real shape of parish giving — not just the total.

Every parish gets these dashboards standard, on any plan that includes Stewardship Health. *Sample visuals below — illustrative of what each dashboard shows, not specific figures.*

LIVE

Giving Distribution

How many donors give at each level, from under \$500 to \$10,000+ a year — the real shape of parish giving, not one total number.

LIVE

Donor Retention

Year-over-year retained, lapsed, and new donors, with a clear retention rate — an early signal of a giving problem, long before the total drops.

LIVE

Giving Concentration Risk

What share of annual giving comes from the top 5 and top 10 households — anonymized and ranked, never identified — with an automatic risk flag using standard nonprofit stewardship thresholds.

LIVE

Recurring Gift Stability

How much of total giving is recurring versus one-time, and how many active recurring donors the parish has — the real measure of predictable cash flow.

AUTOMATED REPORTING

Reports that build themselves.

What used to take a treasurer days generates in minutes, from the same records already in AGAPAY.

LIVE

Monthly Stewardship Report

An auto-generated, print-ready summary for council meetings — pledge progress, fund balances, and giving trends, always current.

LIVE

Monthly Financial Report

A companion financial report reconciled against what's actually been logged — not a manual reconstruction the week before the meeting.

LIVE

Annual Giving Statements

IRS-compliant giving statements, generated for every donor in one batch — no more building these by hand every January.

LIVE

Annual Meeting Packet Builder

A dedicated packet editor that assembles the parish's full annual meeting packet — preview it, edit it, and export a polished, print-ready PDF.

What used to take a treasurer days now takes minutes.

Every metric and every report above is generated automatically from the same gifts, pledges, and funds already flowing through AGAPAY — no exporting to a spreadsheet, no rebuilding a report from scratch before a council meeting.

Plans, Pricing & Next Steps

What it costs the parish, and how the council can move forward today.

\$0 AGAPAY donation fee

AGAPAY adds no percentage-based fee to donations on any plan. Standard Stripe processing fees still apply, and donors may choose to cover those fees so the parish can receive the full intended gift.

Every Orthodox monastery & skete gets Give + at no cost

Monasteries and sketes hold a unique place in Orthodox life — sustained in prayer, and now sustained in stewardship too. Every parish that subscribes to AGAPAY helps make Give + free for the monastic communities that sustain us all.

● One system, not six

Replaces scattered tools and duplicate records with a household-centered platform for clergy, staff, ministry leaders, and parishioners.

● Ministries can do real work

Ministry leaders can manage real parish activity and payment-taking workflows without needing full parish dashboard credentials.

● Our money, our account

Gifts and sales are processed through the parish's own connected Stripe account and deposited directly to its own bank.

● Less work for the staff

Automatic receipts, giving history, commerce records, and accounting workflows reduce repetitive administrative work.

CHOOSE THE LEVEL THAT FITS YOUR PARISH

START HERE

Give
\$9/mo

For parishes that simply want online giving.

Recurring gifts, tithes, candles, and commemorations.

Give +
\$79/mo

For parishes that want stewardship and member management.

Includes Give, plus campaigns, pledge tracking, Stewardship Health, Directory, Bookstore & Library. Koinonia is included too — add Sacraments, Commerce, or Accounting only if needed.

Parish
from \$149/mo

For parishes that want the complete AGAPAY platform.

Every pillar in one household-based subscription. Best value when you want several modules.

OPTIONAL ADD-ONS FOR GIVE +

Pay only for the pillars your parish actually needs — flat, everyday pricing.

Sacraments & Services — self-service scheduling for baptisms, weddings & more **\$9/mo**

Full Commerce — Bookstore included in Give +; this adds Events & Meals **\$29/mo**

Accounting Suite — includes Full Commerce **\$129/mo**

AGAPAY Commerce checkout calculates applicable sales tax automatically, while the Accounting Suite records and reconciles the resulting sales, tax, fees, and deposits.

PARISH PRICING

Every pillar included at one flat, household-based rate.

Under 50 households	\$149/mo
50–149 households	\$179/mo
150–299 households	\$199/mo
300–599 households	\$209/mo
600+ households	Custom

No setup fee, no contract, and no early-adopter fine print — every household band is a flat, everyday price.

READY TO MOVE FORWARD?

Choose your starting plan and let us configure AGAPAY for your parish.

Your subscription and parish launch do not begin until your completed configuration is approved.

1

Parish approves moving forward

The council selects a starting plan and gives the go-ahead to begin setup.

2

Staff completes setup

Guided onboarding with the parish's own verified Stripe account.

3

Launch to the parish

Share Give links, the My AGAPAY app, and Koinonia with the community.

4

Grow into Parish

Add Sacraments, Commerce, and Accounting all at once — bundled for less than buying them separately.
